PROFILE

A versatile and smart working software engineer with the ability to grasp and adapt to new technologies and a hunger for more. Having gotten the experience in software development, I am looking to expand my horizon towards the management side of IT.

EMPLOYMENT HISTORY

Software Engineer, Tim Hortons (Restaurant Brands International) Toronto, Ontario

Apr 2022 – Present

- Developed the Tim Hortons mobile application that is currently used by millions of users across Canada, USA and many other countries around the world.
- Led the efforts for monitoring and logging setup of the app and documented the app's incident management system to be referenced by the entire team.
- Coordinated requirements among developers and designers to ensure that the app's functionality is aligned with the design team's expectation.

Project Management Intern, Skill Squirrel Toronto, Ontario

Jan 2022 – Apr 2022

- Managed the company scrum and oversaw the Skill Squirrel website development process.
- Helped formalize the structure of the startup's scrum process and wrote the documentation for the team's reference.
- Managed requirements among design, development and QA departments.

Senior Frontend Developer, NPH Technologies Mumbai, India

Nov 2020 – Nov 2021

- Developed the Covid help mobile application that is widely used by the medical industry across Canada.
- Designed and developed the application's components that were used by the team to compose the application.
- Led the unit testing setup for organization's website.

OpsGenie / DataDog

Figma

Java

Senior Software Engineer, Zeus Learning

Mumbai, India

Jul 2018 – Nov 2020

- Developed the full stack web application for US education institutes that were used by thousands of students across hundreds of counties.
- Was a part of the client side team based in USA that was working on developing the web based tools that were used by the internal development teams across the organization.
- Implemented and documented the internationalization tools for a top online education platform that is used by millions of users across the world.
